

You are Invited to Design Future Ice Facilities at the Missoula County Fairgrounds

5:30pm - 7:30pm

Wednesday, October 25

Missoula County Fairgrounds, Home Arts Building 35
Light Refreshments Provided

Missoula ice stakeholders have joined to promote reliable, affordable, and accessible ice facilities for the current and next generation of ice users. Members of this group include Glacier Ice Rink/Missoula Area Youth Hockey Association, Missoula County Fairgrounds, City of Missoula Parks and Recreation, Missoula Figure Skating Club, and Missoula Curling Association. Our shared goal is to grow from two traditional ice rinks to three traditional rinks, and four to six curling lanes, at the Fairgrounds. The partnership has hired ice design specialist, 292 Design Group, to help articulate this vision graphically and make prioritization and phasing recommendations for modernization, replacement, and growth. As a member of the Missoula ice community, we need your input on design to ensure the needs of all users are met.
